Message From the Board President for February 2018

Holidays have come and gone very quickly. I think everyone at the Association office deserves to step back and take a breath, they all work very hard especially during the holiday season. The Association sponsors and puts on at least 30 different events over the holiday months.

Now, it's back to business as usual, and that means getting ready for the 2018 Board of Directors Election. The Board will have 4 vacancies to fill this coming April. The deadline to turn in an Intent to Run is Thursday, February 15th; so if you're interested in serving as a Spring Valley Lake Board of Director, get your application in.

The board has also been very busy, here are a few of those items:

Frontier Communications (TV and Internet provider) - the board heard a presentation from Frontier Communications about the possibility of bringing FIOS (Fiber Optic Service) into every home at Spring Valley Lake. The board was interested in discussing the possibilities, since many of you know that reliable high speed internet is not an easy thing to get within the Spring Valley Lake community. The board listened to the many advantages and some disadvantages to this proposal. We will be holding public workshops so the community can listen to what is being offered by Frontier, ask questions, and have a voice on the possibilities of moving forward. Please look for announcements on those dates.

Street / Road Repair Project - the board received some **GREAT** news from San Bernardino First District Supervisor Robert Lovingood's office. At the January's Board of Director's meeting, it was announced that Spring Valley Lake can look forward to another street improvement project in our community. This one will be even larger than the last 3 previous road projects. We are very excited to hear more about the start of that project and want to thank Supervisor Lovingood for his continued support of our community.

New Entry and Gateway Monument - San Bernardino County and Special District CSA 64 have set a construction schedule for the construction of a new entry and gateway monument at the entrance of Spring Valley Parkway near Victor Valley College. The project is scheduled to begin in July and slated for completion by November.

Have a great February!
Steve
