Message from the Board President for SVLA Breeze August 2016

There's been lots of discussion about the proposed renovation of Meadowlark Park these days. Everyone has a great idea or a particular feature they want to make sure is not overlooked. I have had many calls and e-mails regarding this topic and thought it was time to help clear the air and make sure the community is all on the same page. There's nothing worse than getting frustrated over a rumor or exaggeration that turns out to have no real basis or factual content; rather, just an idea that maybe was passed around too many times and does not quite resemble the original statement.

Fact is, the Community Planning Committee has worked long and hard on a proposal for a wonderful plan that incorporates new little league fields, a dog park, snack bar, walking paths, exercise stations and many more exciting features. This proposed plan was presented to the Board for consideration a few months ago and discussed again at the July meeting.

A meeting was also held on Saturday, August 6th, to gather additional community input into the proposed project. Our hope is to make sure everyone with an idea is heard and allowed to voice their opinion. There are so many different types of parks and so many different types of needs to support a diverse community such as ours. The goal is to be able to acknowledge and understand all the different requests and how the community, as a whole, will best benefit. Soccer fields, basketball courts, roller skating, covered shade areas, a snack bar and horseshoes are all wonderful ideas.

My promise to you is that the Board of SVLA will begin with an agreed upon budget and take into consideration the proposed plan from the planning committee, the recommendations brought forth from the community, input from our maintenance department, general manager, architect and engineers. We will look at amenities already offered in the community, their current locations, as well as who our customers are, their ages, wants and needs for park amenities and activities. Yes, a whole lot will go into what our park will eventually become and, when completed, it may not have the particular feature that you thought so important, but I can assure you it will have been thoroughly discussed and have the look and feel that supports SVLA residents that we all can be proud of.

Message from Board Director for SVLA Breeze August 2016

Thanks to Our Many Volunteers

As we enjoy the middle of this wonderful summer, I'd like to take the opportunity to thank the many SVL residents who volunteer their time for the betterment of our community, as well as the SVLA staff and fellow Board of Directors members who serve to keep this community great! To the many residents who offer constructive input regarding fishing area upgrades, the park plan, and other capital improvement projects, thank you for getting involved and for contributing in such a positive manner. Community feedback is extremely valuable to our progress and is very much appreciated!

So many wonderful things happen in SVL throughout the year, including the activities at the Parks, Lake, Beach, and Fishing Areas. Some of the more popular events include our Summer Kick Off, Family Festival, Fireworks Show, Concerts, Family Hoedown, Craft Fair, Yacht Club Casino Night, Dinner Dances, and much more! I would encourage every resident to attend these fun events and to get out and enjoy the many SVLA amenities. What a great opportunity to meet new neighbors and to take full advantage of all that our community has to offer!

Please keep the positive input coming and stay informed of current community events via the SVLA Facebook page and monthly board meetings. Lastly, please don't miss an opportunity to thank our Public Safety staff, Lifeguards, and other SVLA staff members for their dedication and hard work in keeping our community great! Thank you for affording me and the remaining Board of Directors members the opportunity to serve this community. Enjoy the rest of your summer!

Robert McCoy, Board Director
