

Hay Ho from the EQ

THE OFFICIAL BI-WEEKLY NEWSLETTER OF SPRING VALLEY LAKE'S EQUESTRIAN ESTATES

Upcoming Meeting

Tuesday, March 17th

6:00-7:00PM

**Equestrian Clubhouse
12660 Indian River Dr.**

Reminder for Boarders

Please remember to notify the Maintenance team at maintenance@svla.com whenever you have:

- Farrier appointments
- veterinary appointments
- any other appointments or services that will use the barn aisle or require a quieter environment.

This helps SVLA ensure that barn-related projects are not scheduled during those times so we can best accommodate both your horses' needs, our staffing, and project schedules.

Why are horses such bad dancers?

They have two left feet

We also ask that trash cans and their contents are not dumped onto the ground in the barn aisles or surrounding areas. Trash and debris on the floor add unnecessary work for staff and can create a tripping hazard, especially at night when PSD and staff are doing walkthroughs.

Restroom Project

Site walk has been completed. Initial payment has been received, and the application was provided for review and submittal.

Stables Painting

Painting of the Equestrian stables is currently in progress.

Stalls Available

There are multiple stalls available to rent at the Equestrian Center. Renting a stall comes with:

- Fresh water
- Feedings - 3x per day
- Daily mucking of stall

If you are interested in renting a stall, call the Administration Office.

Boarder Vaccinations

Please make sure the Association Office has the most current vaccine records for your horse.

They are to be updated annually.

What time do horses go to bed?

At Knight Time

Bridges Update

Two bridge bids have been completed. Today (3/13/26) is the final submittal day.

EQ Roof

The roofing company is finalizing their surety bond and have indicated it should be received no later than next week. Once that is received, we will proceed with next steps.

Parks Evaluation

Quotes are being gathered to inspect the park areas and provide a cost comparison for ongoing upkeep and maintenance

Dog Waste Stations

This project is complete.

Arena Footing

Evaluation is pending. Awaiting report.
