A reminder from The Municipal Advisory Council about E-Bikes:

The Spring Valley Lake Municipal Advisory Council Important Information Regarding E-Bike Classifications from CHP

### GET MOVING WITH AN ELECTRIC BICYCLE

E-bikes are fun to ride and allow you to go farther and faster with less physical effort.

Riding an e-bike instead of using a car can reduce your carbon impact.

E-Bikes allow people of all ages and physical abilities to experience the joy of cycling & exercise.

#### Health Benefits of Riding

- Improved Cardiovascular Health
- Improved Aerobic Capacity
- Blood Sugar Control
- Burn Calories & Increase Strength
- Boost Immunity

*E-bikers need to exert 22% less energy than traditional bicycles - an excellent alternative for longer distances or senior cyclists!*

### E-Bike CLASSIFICATIONS

**CLASS 1**

**PEDAL ASSIST**

**<20 MPH**

A class 1 electric bicycle, or "low-speed pedal-assisted electric bicycle," is a bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour.

**CLASS 2**

**THROTTLE ASSIST**

**<20 MPH**

A class 2 electric bicycle, or "low-speed throttle-assisted electric bicycle," is a bicycle equipped with a motor that may be used exclusively to propel the bicycle, and that is not capable of providing assistance when the bicycle reaches the speed of 20 miles per hour.

**CLASS 3**

**PEDAL ASSIST**

**<28 MPH**

A class 3 electric bicycle, or "speed pedal-assisted electric bicycle," is a bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 28 miles per hour, and equipped with a speedometer.

Additionally, to operate a Class 3 E-Bike you must:

- Be 16 years of age or older
- Wear a helmet, regardless of age

No driver's license is required. Per California Vehicle Code Section 21212, **riders under the age of 18 must wear a helmet, regardless of bicycle type.**

Any purchased or modified E-Bike that can travel at speeds above 28 miles per hour is no longer considered an E-Bike, and is considered an "out of class electric vehicle" which is illegal to operate on public roadways.

Tampering with or modifying your E-bike battery or speed settings could result in an illegal modification leading to potential injury or death.

Lost/Found Pets

We understand how stressful it can be when a beloved pet goes missing, and we are here to support you.

We recommend obtaining a pet tag from the Association Office. With this tag, if your pet is found within the community, Public Safety will be able to quickly identify them and contact you.

If you would like assistance notifying the community, we are happy to help by posting your pet's information on the SVLA Living app and our social media platforms. Please note that we no longer send e-blasts for lost or found pets.

If you need to notify us about a lost or found animal after office hours, contact Public Safety at 760-245-6400 or email [dispatchoffice@svla.com](mailto:dispatchoffice@svla.com)
